**Management's Discussion and Analysis**

Management's Discussion and Analysis of the financial position and results of operations for the three months and year ended August 31, 2015 is prepared at September 30, 2015. The following should be read in conjunction with Management's Discussion and Analysis, consolidated financial statements and the notes thereto included in the Company's August 31, 2014 Annual Report and the consolidated financial statements and notes of the current quarter. The financial highlights included in the discussion of the segmented results are derived from the unaudited consolidated financial statements. All amounts are stated in Canadian dollars unless specified otherwise.

Corus reports its financial results under International Financial Reporting Standards ("IFRS") in Canadian dollars. Per share amounts are calculated using the weighted average number of shares outstanding for the applicable period.

***Cautionary statement regarding forward-looking statements***

To the extent any statements made in this report contain information that is not historical, these statements are forward-looking statements and may be forward-looking information within the meaning of applicable securities laws (collectively, "forward-looking statements"). These forward-looking statements relate to, among other things, our objectives, goals, strategies, intentions, plans, estimates and outlook, including advertising, distribution, merchandise and subscription revenues, operating costs and tariffs, taxes and fees, and can generally be identified by the use of the words such as "believe", "anticipate", "expect", "intend", "plan", "will", "may" and other similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Although Corus believes that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, including without limitation, factors and assumptions regarding advertising, distribution, merchandise and subscription revenues, operating costs and tariffs, taxes and fees and actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things: our ability to attract and retain advertising revenues; audience acceptance of our television programs and networks; our ability to recoup production costs, the availability of tax credits and the existence of co-production treaties; our ability to compete in any of the industries in which we do business; the opportunities (or lack thereof) that may be presented to and pursued by us; conditions in the entertainment, information and communications industries and technological developments therein; changes in laws or regulations or the interpretation or application of those laws and regulations; our ability to integrate and realize anticipated benefits from our acquisitions and to effectively manage our growth; our ability to successfully defend ourselves against litigation matters arising out of the ordinary course of business; and changes in accounting standards. Additional information about these factors and about the material assumptions underlying such forward-looking statements may be found in our Annual Information Form. Corus cautions that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Corus, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Unless otherwise required by applicable securities laws, Corus disclaims any intention or obligation to publicly update or revise any forward-looking statements whether as a result of new information, events or circumstances that arise after the date thereof or otherwise.

**Fourth Quarter Report to Shareholders**

This document contains forward-looking statements about expected future events and the financial operating performance of the Company.

For a discussion on the Company's results of operations for fiscal 2014, we refer you to the Company's Annual Report for the year ended August 31, 2014 filed on SEDAR on December 11, 2014.

The following discussion describes the significant changes in the consolidated results from operations.

### Overview of Consolidated Results

Net income attributable to shareholders for the fourth quarter of fiscal 2015 was \$17.8 million on revenues of \$193.6 million, as compared to net income of \$23.7 million on revenues of \$201.6 million in the prior year. Consolidated segment profit decreased 5% from the prior year, with decreases of 8% in the Television segment and 11% in the Radio segment. Further analysis is provided in the discussions of segmented results.

Net loss attributable to shareholders for the year ended August 31, 2015 was \$25.2 million on revenues of \$815.3 million, as compared to net income of \$150.4 million on revenues of \$833.0 million in the prior year. Consolidated segment profit decreased 4% from the prior year, with Television down 5% and Radio down 19%. Further analysis is provided in the discussions of segmented results.

For fiscal 2014, the operating results of TELETOON Canada Inc. ("TELETOON"), as well as its assets and liabilities, were fully consolidated effective September 1, 2013 as a consequence of meeting the definition of control under IFRS 10 – *Consolidated Financial Statements*. Further discussion is provided in note 27 of the Company's audited consolidated financial statements for the year ended August 31, 2014.

Free cash flow for the year ended August 31, 2015 was \$201.2 million compared to \$175.3 million in the prior year.

#### **Revenues**

Revenues for the fourth quarter of fiscal 2015 were \$193.6 million, compared to \$201.6 million in the prior year. On a consolidated basis, subscriber revenues decreased by 1%, advertising revenues decreased by 8% and merchandising, distribution and other revenues decreased by 1%. Revenues decreased for Television by 3%, and Radio by 6% compared to the prior year. Further analysis of revenues is provided in the discussion of segmented results.

For the year ended August 31, 2015, revenues of \$815.3 million were down 2% from \$833.0 million in the prior year. On a consolidated basis, both subscriber revenues and merchandising, distribution and other revenues increased by 2% and 5%, respectively, while advertising revenues decreased by 7%. Refer to discussions of segmented results for additional analysis of revenues.

#### **Direct cost of sales, general and administrative expenses**

Direct cost of sales, general and administrative expenses for the fourth quarter of fiscal 2015 were \$138.1 million, compared to \$143.2 million in the prior year. On a consolidated basis, direct cost of sales decreased 1%, employee costs decreased 9% and other general and administrative expenses decreased 4%. These decreases resulted from lower costs in all reporting segments.

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

For the year ended August 31, 2015, expenses of \$538.1 million were down 1% from \$543.4 million in the prior year. On a consolidated basis, direct costs increased 4%, employee costs decreased 8% and other general and administrative expenses decreased 3%. Further analysis of expenses is provided in the discussion of segmented results.

***Depreciation and amortization***

Depreciation and amortization expense for the fourth quarter of fiscal 2015 was \$6.1 million, up 13% from \$5.4 million in the prior year. The increase in the quarter arises from adjustments to useful life on certain assets, which accelerated the amortization of those items. For the year ended August 31, 2015, depreciation and amortization expense of \$24.1 million was consistent with the prior year. The full year depreciation and amortization expense in the prior year includes a \$1.2 million capital asset impairment charge in the Radio division. Removing the impact of this item results in a decrease in amortization of property, plant and equipment in fiscal 2015, which is offset by higher amortization of intangible assets, specifically software.

***Interest expense***

Interest expense of \$12.4 million in the fourth quarter of fiscal 2015 was \$0.6 million lower than the prior year, primarily due to repayment of bank debt that was incurred in the prior year to finance business acquisitions. Interest expense of \$50.9 million for the year ended August 31, 2015 was \$2.6 million higher than the prior year. The effective interest rate on bank loans and notes for the fourth quarter of fiscal 2015 was 4.2%, which was comparable to the prior year, while the full year was 4.1% compared to 4.2% in the prior year. The lower effective rates for the full year results from a higher proportion of bank debt at lower floating rates. Interest expense on credit facilities for the fourth quarter was lower relative to the prior year as a result of paying down bank debt. Interest expense on the credit facilities for the full year of fiscal 2015 was higher, resulting primarily from increased average bank debt made in the prior year to finance business acquisitions.

On February 25, 2015, the Company's credit facility with a syndicate of banks was amended. The principal amendment was a two year extension of the maturity date on the \$500.0 million revolving facility to February 25, 2019.

***Broadcast license and goodwill impairment***

Broadcast licenses and goodwill are tested for impairment annually as at August 31 or more frequently if events or changes in circumstances indicate that they may be impaired. In the second quarter of fiscal 2015, certain radio clusters had actual results and revised cash flow projections that fell short of previous estimates, which indicated that interim broadcast license and goodwill impairment testing was required in the radio segment. As a result of these tests, the Company recorded broadcast license impairment charges of \$23.0 million and a goodwill impairment charge of \$107.0 million in the second quarter of fiscal 2015 (refer to note 7 of the interim condensed consolidated financial statements for further details). In both the second and third quarters of fiscal 2014, the Company recorded impairment charges on broadcast licenses and goodwill totaling \$83.0 million as a result of certain radio clusters having actual results and revised cash flow projections that fell short of previous estimates.

The Company has completed its annual impairment testing of broadcast licenses and goodwill and determined that there were no further impairment charges required at August 31, 2015.

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

***Intangible impairments***

During the third quarter of fiscal 2015, the Company undertook a strategic, in-depth review of the television programming slate to determine what programming will best position its services in the new regulatory environment. Programs that were not delivering adequate audience ratings were considered impaired and were written down accordingly. In addition, certain equity film investments were also considered impaired and written down accordingly. These film investments primarily related to equity film investments made by the Pay TV vertical, and certain boys action properties from Nelvana which are no longer supported by merchandising sales as the current lifecycle of the toy properties have ended. As a result, the Company recorded non-cash impairment charges in program rights and film investments of \$51.8 million in the third quarter of fiscal 2015. These charges are excluded from the determination of segment profit.

***Business acquisition, integration and restructuring costs***

For the three months ended August 31, 2015, the Company incurred \$8.3 million of business integration and restructuring costs compared to \$5.6 million in the prior year. The current year costs were primarily attributable to severance and employee related costs in the Corporate and Television segments.

For the year ended August 31, 2015, the Company incurred \$19.0 million of business acquisition, integration and restructuring costs compared to \$46.8 million in the prior year. The prior year included \$14.9 million in restructuring costs and \$31.9 million related to the present value of the CRTC tangible benefit obligations.

***Gain on acquisition***

In the first quarter of fiscal 2014, the Company recorded a non-cash gain of \$127.9 million resulting from the remeasurement to fair value of the Company's original 50% interest in TELETOON which was held prior to the acquisition of control on September 1, 2013.

***Other (income) expense, net***

Other (income) expense for the three months and year ended August 31, 2015 was expense of \$2.6 million compared to income of \$1.5 million in the prior year. The decrease in the fourth quarter relates to asset decommissioning and higher foreign exchange losses, while the prior year included a recovery of an investment previously written down of \$1.0 million.

For the year ended August 31, 2015, income of \$10.1 million consists of proceeds of \$18.5 million received from Steamboat Ventures relating to its disposal of an investment, of which \$1.5 million related to a return on capital, which resulted in a gain of \$17.0 million. This was offset by equity losses from investments in associates of \$3.3 million and foreign exchange losses of \$5.0 million. The prior year expense of \$5.7 million included a cumulative increase of \$3.3 million in the purchase obligation relating to the TELETOON acquisition, impairment charges on certain investments of \$1.1 million and equity losses in associates of \$2.4 million, offset by a recovery of an investment previously written down of \$1.0 million.

***Income tax expense***

The effective tax rate for the year ended August 31, 2015 was a 270.0% compared to the Company's 26.5% statutory rate. This higher effective tax rate is primarily the result of the \$107.0 million goodwill

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

impairment charge recorded in the year, which is not a tax-deductible expense.

The effective tax rate for the year ended August 31, 2014 was 25.5% compared to the Company's 26.6% statutory rate. This lower effective tax rate reflects that both the non-cash gain resulting from the remeasurement to fair value of the Company's original 50% interest in TELETOON and the goodwill impairment are not subject to tax. A tax deduction is not expected to be available in respect to certain transaction-related costs.

***Net income (loss) and earnings (loss) per share***

Net income attributable to shareholders for the fourth quarter of fiscal 2015 was \$17.8 million (\$0.21 per share), as compared to \$23.7 million (\$0.28 per share) in the prior year. Net income attributable to shareholders for the current quarter includes business acquisition, integration and restructuring costs of \$8.3 million (\$0.07 per share). Removing the impact of this item results in an adjusted net income attributable to shareholders of \$24.0 million (\$0.28 per share basic) in the quarter. Net income attributable to shareholders for the prior year quarter includes business acquisition, integration and restructuring costs of \$5.6 million (\$0.04 per share), and investment impairment recovery of \$1.0 million (\$0.01 per share). Removing the impact of these items results in an adjusted net income attributable to shareholders of \$26.8 million (\$0.31 per share basic).

Net loss attributable to shareholders for the year ended August 31, 2015 was \$25.2 million (\$0.29 per share), as compared to earnings of \$150.4 million (\$1.77 per share) in the prior year. Net loss attributable to shareholders for the fiscal 2015 year includes radio broadcast license and goodwill impairment charges of \$130.0 million (\$1.44 per share), intangible impairment charges of \$51.8 million (\$0.44 per share), and business acquisition, integration and restructuring costs of \$19.0 million (\$0.15 per share), offset by a gain on disposition of investment of \$17.0 million (\$0.17 per share). Removing the impact of these items results in an adjusted net income attributable to shareholders of \$135.9 million (\$1.57 per share basic) for the current year. Net income attributable to shareholders for the prior year includes a non-cash gain of \$127.9 million (\$1.51 per share) resulting from the remeasurement to fair value of Corus' 50% interest in TELETOON which was held prior to consolidation on September 1, 2013, radio broadcast license and goodwill impairment charges of \$83.0 million (\$0.92 per share), capital asset impairment charges of \$1.2 million (\$0.01 per share), business acquisition, integration and restructuring costs of \$46.8 million (\$0.51 per share), an increase in the purchase price obligation of \$3.3 million (\$0.04 per share), and investment impairment related charges of \$2.3 million (\$0.03 per share). Removing the impact of these items results in an adjusted net income attributable to shareholders of \$150.3 million (\$1.77 per share).

The weighted average number of basic shares outstanding for the three months and year ended August 31, 2015, was 86,961,000 and 86,441,000, respectively, and has increased in the current year due to the issuance and exercise of stock options and the issuance of shares from treasury under the Company's dividend reinvestment plan.

***Other comprehensive income (loss), net of tax***

Other comprehensive income for the year ended August 31, 2015 was \$4.3 million, compared to a loss of \$0.1 million in the prior year. This increase of \$4.4 million resulted primarily from higher unrealized gains from foreign currency translation adjustments and actuarial gains on defined benefit plans, offset by higher unrealized losses from hedges and available-for-sale investments in the current year.

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

**Television**

The Television segment is comprised of: YTV; Treehouse; Nickelodeon (Canada); ABC Spark; TELETOON, TÉLÉTOON; TELETOON Retro and TÉLÉTOON Rétro (both discontinued August 31, 2015); Disney Channel (Canada) and La chaîne Disney (launched September 1, 2015); Cartoon Network (Canada); W Network; OWN: Oprah Winfrey Network (Canada); W Movies; Sundance Channel (Canada); Historia and Séries+ (acquired January 1, 2014); Corus' western Canadian pay television services (Movie Central, including HBO Canada and Encore Avenue); three conventional television stations serving Southeastern Ontario including Peterborough, Kingston and Oshawa; the Corus content business including Nelvana (production and distribution of films and television programs, and merchandise licensing), Kids Can Press (publishing) and Toon Boom (animation software); and the Company's majority interest in CMT (Canada), CosmopolitanTV, and Teletatino (TLN, EuroWorld Sport, Mediaset Italia, Sky TG24, Teleniños, Univision (Canada), Telebimbi).

**Financial Highlights**

(thousands of Canadian dollars)	Three months ended		Year ended

<sup>(1)</sup>As defined in the "Key Performance Indicators" section

Revenues decreased 3% in the fourth quarter of fiscal 2015 as a result of a 10% decrease in specialty advertising revenues, a 1% decrease in subscriber revenues, offset by a 1% increase in merchandising, distribution and other revenues. Despite double digit growth in the Company's Women & Family vertical, specialty advertising revenues were impacted by significantly lower revenues at Teletatino (due to the broadcasting of FIFA World Cup soccer in the prior year) and advertising softness in the Kids vertical. Despite growth in Pay television subscribers over the prior quarter, subscriber revenues were down modestly in the quarter compared to the prior year. The growth in merchandising, distribution and other revenues reflects higher merchandising revenues from several master toy advances for the Company's new properties, offset by lower distribution and service work revenues. For the year ended August 31, 2015, total revenues were down 1%, driven by a 6% decrease in specialty advertising revenues offset by an increase in subscriber revenues of 2% and merchandising, distribution and other revenues of 7%.

Total expenses in the fourth quarter of fiscal 2015 decreased by 1% compared to the prior year. Direct cost of sales (which includes amortization of program rights and film investments, and other cost of sales) were slightly lower than the prior year, as lower program and film amortization costs were offset by higher cost of sales relating to higher merchandising revenues. General and administrative expenses were down 2% from the prior year as a result of continued focus on cost control. For the year-ended August 31, 2015, total expenses increased 2% from the prior year, primarily as a result of an increase to direct cost of sales of 5%, offset by a decrease of 3% to general and administrative expenses.

Segment profit decreased 8% in the fourth quarter of fiscal 2015 and 5% for the full year. Segment profit margin for the quarter was 34%, compared to 36% in the prior year. Segment profit margin for the full year was 40%, down slightly from 41% in the prior year as the Company continued to focus on managing costs in a challenging revenue environment.

Revenues decreased 6% in the fourth quarter of fiscal 2015 and for the year. More than half of the revenue shortfall was driven by disappointing results from the Toronto radio cluster. However, in the recent ratings released in September 2015, 102.1 the Edge continued to improve its ranked position in A25-54 in the important Toronto market, while both the Edge and Q107 maintained the #2 position in their core demos. The Vancouver radio cluster continued to deliver strong year-over-year revenue growth for the second consecutive quarter as a result of the programming changes made in the fourth quarter of fiscal 2014. The recent ratings confirmed that Vancouver's Rock 101 and CFOX are continuing on the right track, with both of these stations in the top five in A25-54.

Direct cost of sales, general and administrative expenses in the fourth quarter of fiscal 2015 decreased by 5% compared to the prior year and 2% for the year. Variable expenses decreased 9% for the quarter and for the year, driven mainly by lower costs directly correlated to revenue and lower commissions resulting from a realignment in the sales force during the year. Fixed costs, which represent a much higher proportion of the cost structure, decreased 2% in the quarter due to lower programming and general and administrative costs, offset by increased investment in research. Fixed expenses increased 1% for the fiscal year compared to the prior year, primarily as a result of incremental costs from the Ottawa radio stations that were acquired January 31, 2014 and increased investment in research, offset by lower general and administrative costs.

Segment profit decreased 11% in the fourth quarter of fiscal 2015 and 19% for the year. Segment profit margin decreased from 23% in the prior year to 22% for the quarter and from 26% to 23% for the year, as a result of the revenue softness and the investment in the Company's Ottawa radio stations.

The operating results finished significantly lower than planned. The key to recovery is regaining market share in the major markets. While the repositioning of radio is translating into ratings improvement, the revenue recovery is taking longer than originally anticipated, particularly in Toronto, the Company's largest radio cluster. As a result, the Company recorded non-cash impairment charges in broadcast licenses and goodwill of \$130.0 million in the second quarter of fiscal 2015. These charges are excluded from the determination of segment profit.

**CORUS ENTERTAINMENT INC.**

**Corporate**

The Corporate results are comprised of the incremental cost of corporate overhead in excess of the amount allocated to the operating divisions.

Share-based compensation includes expenses related to the Company's stock options and other long-term incentive plans (such as Performance Share Units - "PSUs", Deferred Share Units - "DSUs", and Restricted Share Units - "RSUs"). The expense fluctuates with changes in assumptions, primarily regarding the Company's share price and number of units estimated to vest. Lower fourth quarter and full year share-based compensation reflects a decrease in the number of units that achieved vesting targets and a lower share price compared to the prior year.

For the fourth quarter of fiscal 2015, other general and administrative costs have increased primarily due to higher costs related to the timing of certain expenses. For the full year, other general and administrative costs have decreased primarily due to lower costs related to performance incentive plans and a continued focus on cost control.

**QUARTERLY CONSOLIDATED FINANCIAL INFORMATION**

***Seasonal fluctuations***

As discussed in Management's Discussion and Analysis for the year ended August 31, 2014, Corus' operating results are subject to seasonal fluctuations that can significantly impact quarter-to-quarter operating results. The Company's advertising revenues are dependent on general advertising revenues and retail cycles associated with consumer spending activity, accordingly the first and third quarter results tend to be the strongest and second and fourth quarter results tend to be the weakest in a fiscal year. The Company's merchandising and distribution revenues are dependent on the number and timing of film and television programs delivered as well as the timing and level of success achieved of associated merchandise licensed in the market, which cannot be predicted with certainty. Consequently, the Company's results may fluctuate materially from period-to-period and the results of any one period are not necessarily indicative of results for future periods.

The following table sets forth certain unaudited data derived from the interim condensed consolidated financial statements for each of the eight most recent quarters ended August 31, 2015. In Management's opinion, these unaudited consolidated financial statements have been prepared on a basis consistent with the audited consolidated financial statements in the Company's Annual Report for the year ended August 31, 2014.

**Risks and Uncertainties**

The significant risks and uncertainties affecting the Company and its business are discussed in the Company's August 31, 2014 Annual Report under the *Risks and Uncertainties* section in the Management's Discussion and Analysis. Developments of note since then are as follows:

A series of CRTC policy statements and substantive decisions under the overall mantle known as "Let's Talk TV" have introduced several changes to the regulatory framework governing Broadcasting Distribution Undertakings ("BDUs") and Broadcasting Undertakings. Some of these could affect the Company. Most of these policies have not as yet appeared as draft regulations that will be subject to a public comment process. This should occur through the balance of this calendar year.

What follows is a précis of changes that could affect the Company. The reader should review the CRTC source documents at [www.CRTC.gc.ca](http://www.CRTC.gc.ca) for a complete understanding of the proposed changes.

On January 29, 2015, the CRTC asked the industry to examine the process of simultaneous substitution of US network stations by Canadian stations carrying the same program at the same time. The Commission also suggested that substitution of the NFL Super Bowl would be prohibited in 2017. This ban has been subject to a legal challenge by the Canadian rights holder network CTV which will supply the Company's local broadcast stations with programming as of August 30, 2015.

On March 12, 2015, the CRTC eliminated genre protection which allows the Company to adapt the nature of service for its television services according to market conditions. The Commission also established on this date an open entry licensing system with Canadian ownership status and carriage in more than 200,000 subscriber homes being effectively the only conditions required to be licensed as a Broadcasting Undertaking. The Commission also proposed an open entry system for video on demand services that meet certain criteria.

On March 19, 2015, the CRTC issued a policy statement regarding the revision of the carriage rules for adoption by BDUs. These policy statements will require regulations to implement which have not been released yet. These draft regulations will be subject to a public process.

The proposals include requiring BDUs to offer an entry level basic service of local broadcast stations and certain mandatory distribution specialty services at a maximum price of C\$25 retail a month. This will commence March 2016.

The Commission also proposed to group all services into three license categories: basic; discretionary; and on-demand services.

At this time, the CRTC proposed that all BDUs would be required to offer all discretionary services on an à la carte basis, or "build your own package" or in theme pack packages of 10 services. In December 2016, BDUs will be required to expand consumer choice to pure à la carte.

However, the BDU can offer, and a consumer can maintain, their status quo packages. The Commission also proposed an oversight over wholesale pricing and negotiations related thereto but the final policy has not been released and it remains to be seen how this will unfold.

The Commission also proposed changes to the level of linear Canadian Content requirements to commence in 2017. This would reduce the obligations of the Company's services.

On March 26, 2015, the Commission published a draft Television Service Provider Code of Conduct and requested comments. This code mandates clear language on customer agreements, transparency in charges, promotion of new packaging rules, service call scheduling, and rebates for service outages.

## **CORUS ENTERTAINMENT INC.**

### **Fourth Quarter Report to Shareholders**

On July 9, 2015, the Commission published draft Broadcasting Distribution Regulations for public comment. These draft amendments were to implement the carriage provisions of the Let's Talk TV policies published earlier in the year.

On September 24, 2015, the CRTC published the Wholesale Code. The CRTC stated it's goals for the code: *"The Wholesale Code governs certain aspects of the commercial arrangements between broadcasting distribution undertakings (BDUs), programming undertakings, and exempt digital media undertakings. It will ensure that subscribers have greater choice and flexibility in the programming services they receive, that programming services are diverse, available and discoverable on multiple platforms, and that negotiations between programming services and BDUs are conducted in a fair manner."*

These changes in the regulatory regime may adversely affect the Company's business and operating results.

#### **2015 Financial Guidance**

The following forward looking information is governed in its entirety by the "Cautionary Statement Regarding Forward-Looking Statements" found in the introductory section of this MD&A.

At its annual Investor Day on November 20, 2014, the Company confirmed its previously announced fiscal 2015 guidance of \$300.0 million to \$320.0 million in consolidated segment profit and free cash flow in excess of \$180.0 million.

In the second quarter of fiscal 2015, the Company announced that it did not expect to achieve the low end of the segment profit guidance for the fiscal year. In the third quarter, based on the year-to-date financial results, the Company confirmed that it would not meet the low end of the segment profit guidance for the fiscal year; however free cash flow guidance would remain unchanged. As expected, actual segment profit of \$277.2 million was below fiscal 2015 guidance of \$300.0 million to \$320.0 million due to economic headwinds that negatively impacted advertising market confidence and revenues, including a decline in the Canadian dollar since January 1, 2015, a surprise interest rate cut, a plunge in oil prices and the closure of large retail stores such as Target Canada. Actual free cash flow for fiscal 2015 was a record \$201.2 million, exceeding the guidance originally set of in excess of \$180.0 million, as the Company did an excellent job managing working capital and benefitted from a gain on a strategic investment in the second quarter.

The Company will not provide financial guidance for fiscal 2016.

#### **FINANCIAL POSITION**

Total assets at August 31, 2015 and August 31, 2014 were \$2.6 billion and \$2.8 billion, respectively. The following discussion describes the significant changes in the consolidated statements of financial position since August 31, 2014.

Current assets at August 31, 2015 were \$228.3 million, up \$10.9 million from August 31, 2014. Cash and cash equivalents increased by \$25.8 million. Refer to the discussion of cash flows in the next section.

Accounts receivable decreased \$18.4 million during the year. The accounts receivable balance is subject to seasonal trends. Typically the balance is higher in the first and third quarters and lower in the second and fourth quarters as a result of the broadcast revenue cycle. Accounts receivable decreased as a

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

result of lower revenues in the current year. The Company carefully monitors the aging of its accounts receivable.

Tax credits receivable decreased \$3.1 million during the year as a result of receipts and tax credits applied against tax liabilities exceeding tax credit accruals related to film and interactive productions.

Intangibles, investments and other assets increased \$13.0 million during the year, primarily as a result of increases in investments offset by equity losses from associates and amortization of intangibles.

Property, plant and equipment decreased \$4.5 million during the year, as a result of depreciation expense exceeding additions for fiscal 2015.

Program and film rights decreased \$14.5 million during the year, as additions of acquired rights of \$229.6 million were offset by impairment charges of \$30.7 million and amortization of \$213.5 million during fiscal 2015.

Film investments decreased \$26.9 million during the year, as film spending (net of tax credit accruals) of \$22.1 million were offset by impairment charges of \$21.1 million and film amortization of \$27.9 million.

Broadcast licenses decreased \$23.0 million during the year, while goodwill decreased \$107.0 million from August 31, 2014 balances as a result of impairment charges related to the Radio segment recorded in the second quarter of fiscal 2015.

Accounts payable and accrued liabilities increased \$40.6 million during the year, primarily as a result of higher current program rights payable, offset by reductions in accrued liabilities. The reductions in accrued liabilities relate primarily to accrual for performance incentive plans, short-term portion of stock-based compensation and third-party participations.

Provisions have increased \$3.6 million during the year as a result of accruals exceeding payments made in the year relating to restructuring and the retirement of senior executives as well as early termination costs on an affiliation agreement.

Long-term debt at August 31, 2015 was \$651.0 million, down \$223.2 million compared to \$874.3 million at August 31, 2014. During fiscal 2015, the Company paid down bank loans by \$74.7 million and incurred amortization of deferred financing charges of \$1.5 million. In addition, the \$150.0 million Term Facility maturing February 3, 2016 has been classified as current on the Statements of Financial Position.

Other long-term liabilities decreased by \$33.0 million during the year, primarily from decreases in long-term program rights payable, long-term employee obligations as a result of retirement of senior executives, public benefits associated with acquisitions, and merchandising and intangibles liabilities.

Share capital increased \$27.2 million, as the issuance of shares from treasury under the Company's dividend reinvestment plan and issuance of stock options added \$20.5 million and \$6.7 million, respectively, to share capital.

Contributed surplus increased \$1.1 million due to share-based compensation expense of \$2.2 million, offset by the issuance of shares under the stock option plan of \$1.1 million.

**LIQUIDITY AND CAPITAL RESOURCES**

***Cash flows***

Overall, the Company's cash and cash equivalents position increased by \$25.8 million during the year ended August 31, 2015. Free cash flow for the year ended August 31, 2015 was \$201.2 million, compared to free cash flow of \$175.3 million in the prior year. This increase in free cash flow primarily reflects higher cash provided by operating activities and proceeds from disposition of an investment, offset by higher capital additions and lower cash inflows from working capital. A reconciliation of free cash flow to the consolidated statements of cash flows is provided in the Key Performance Indicators section.

Cash provided by operating activities in the year ended August 31, 2015 was \$210.4 million, compared to \$194.5 million in the prior year. The increase of \$15.9 million arises from lower program rights payments of \$23.2 million, offset by higher additions to film investments of \$9.6 million, lower cash inflows from working capital of \$4.8 million and lower net income from operations before adjustments of \$7.1 million.

Cash used in investing activities in the year ended August 31, 2015 was \$28.9 million, compared to \$526.2 million in the prior year. The prior year includes cash outflows of \$497.4 million for business acquisitions in the prior year. The current year includes cash proceeds from disposition of an investment of \$18.5 million, offset by net cash outflows for intangibles, investments and other assets of \$24.8 million, additions to property, plant and equipment of \$16.7 million and CRTC benefits payments of \$5.9 million.

Cash used in financing activities in the year ended August 31, 2015 was \$155.6 million, compared to cash provided by financing activities of \$262.1 million in the prior year. In the current year, the Company paid down bank debt by \$74.7 million, paid dividends of \$81.8 million, made capital lease payments of \$4.0 million and received \$5.7 million from issuance of shares under the stock option plan. In the prior year, the Company incurred \$333.2 million in bank loans to finance the business acquisitions, paid dividends of \$72.2 million, made capital lease payments of \$3.0 million and received \$4.6 million from issuance of shares under the stock option plan.

***Liquidity***

The Company's capital management objectives are to maintain financial flexibility in order to pursue its strategy of organic growth combined with strategic acquisitions and to provide returns to its shareholders. The Company defines capital as the aggregate of its shareholders' equity and long-term debt less cash and cash equivalents.

The Company manages its capital structure in accordance with changes in economic conditions. In order to maintain or adjust its capital structure, the Company may elect to issue or repay long-term debt, issue shares, repurchase shares through a normal course issuer bid, pay dividends or undertake any other activities as deemed appropriate under the specific circumstances.

The Company monitors capital using several key performance metrics, including: net debt to segment profit ratio and dividend yield. The Company's stated long-term objectives are not to exceed a net debt to segment profit ratio of 3.5 times, and to maintain a dividend yield in excess of 2.5%. In the short term, the Company may permit the net debt to segment profit ratio to go outside of the long-term guideline range (for long-term investment opportunities), but endeavours to return to the policy guideline range as the Company believes that these objectives provide a reasonable framework for

**CORUS ENTERTAINMENT INC.**  
**Fourth Quarter Report to Shareholders**

providing a return to shareholders and is supportive of maintaining the Company's credit ratings. The Company is currently operating within these internally imposed objectives.

On February 25, 2015, the Company's \$500.0 million credit facility with a syndicate of banks was amended. The principal amendment was to extend the maturity date, on the \$500.0 million revolving facility, to February 25, 2019.

As at August 31, 2015, the Company had available approximately \$390.0 million under the revolving term credit facility and was in compliance with all loan covenants. As at August 31, 2015, the Company had a cash balance of \$37.4 million. Management believes that cash flow from operations and existing credit facilities will provide the Company with sufficient financial resources to fund its operations for the next 12 months.

***Net debt to segment profit***

As at August 31, 2015, net debt was \$763.6 million, down from \$862.7 million at August 31, 2014. Net debt to segment profit at August 31, 2015 was 2.8 times compared to 3.0 times at August 31, 2014. Segment profit for the net debt to segment profit calculation reflects aggregate amounts as reported by the Company for the most recent four quarters. Further discussion on this is contained in the Key Performance Indicators section.

***Total capitalization***

At August 31, 2015, total capitalization was \$1,983.5 million, a decrease of \$189.3 million from August 31, 2014. The decrease results from lower net income and debt levels.

***Off-Balance Sheet arrangements and derivative financial instruments***

During the second quarter of fiscal 2014, the Company entered into a Canadian interest rate swap agreement to fix the interest rate on its outstanding term loan facility. The counterparties of the swap agreements are highly rated financial institutions and the Company does not anticipate any non-performance. The fair value or future cash flows of interest rate swap derivatives increase (decrease) with fluctuations in market interest rates. The estimated fair value of these agreements at August 31, 2015 is \$0.4 million, which has been recorded in the Interim Condensed Consolidated Statements of Financial Position as a liability.

***Contractual commitments***

In the third quarter of fiscal 2015, the Company entered into the following contractual obligations:

On March 16, 2015, the Company and MTV Networks Canada ("Nickelodeon") expanded their strategic partnership with a long-term agreement that grants the Company exclusive Canadian rights to all of Nickelodeon's English- and French-language content across digital platforms and linear services. Under the terms of the licensing deal, the Company becomes the sole distributor and rights holder of Nickelodeon's current content and library titles in Canada.

On April 10, 2015, the Company and Buena Vista Television expanded their partnership with a long-term agreement that grants the Company exclusive rights to operate Disney Channel, Disney Junior, Disney XD and Disney Channel French in Canada. Under the terms of the licensing deal, the Company becomes the sole licensee of Disney content and Disney branded networks in Canada.

The annual commitments for both agreements are based on minimum guarantee and variable payments.

**Fourth Quarter Report to Shareholders**

**Outstanding Share Data**

As at September 30, 2015, 3,425,792 Class A Voting Shares and 83,846,600 Class B Non-Voting Shares were issued and outstanding.

**Changes in Internal Control Over Financial Reporting**

There were no changes in the Company's internal control over financial reporting that occurred in the year ended August 31, 2015 that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

**KEY PERFORMANCE INDICATORS**

The Company measures the success of its strategies using a number of key performance indicators. These have been outlined in Management's Discussion and Analysis contained in the Annual Report for the year ended August 31, 2014, including a discussion as to their relevance, definitions, calculation methods and underlying assumptions.

In particular, segment profit is calculated as revenues less direct cost of sales, general and administrative expenses as reported in the Company's consolidated statements of income and retained earnings. Segment profit may be calculated and presented for an individual operating segment, or for the consolidated Company. The Company believes this is an important measure as it allows the Company to evaluate the operating performance of its business segments and its ability to service and/or incur debt; therefore, it is calculated before (i) non-cash expenses such as depreciation and amortization; (ii) interest expense; and (iii) items not indicative of the Company's core operating results, and not used in management's evaluation of the business segment's performance, such as: goodwill and broadcast license impairment; significant intangible asset impairments; debt refinancing; non-cash gains or losses and certain other income and expenses (note 12 to the interim consolidated financial statements). Segment profit is also one of the measures used by the investing community to value the Company and is included in note 14 to the condensed interim consolidated financial statements. Segment profit does not have any standardized meaning prescribed by International Financial Reporting Standards ("IFRS") and is not necessarily comparable to similar measures presented by other companies.

Certain key performance indicators are not measurements in accordance with IFRS and should not be considered as an alternative to net income or any other measure of performance under IFRS. The following tables reconcile those key performance indicators that are not in accordance with IFRS measures:

***Free cash flow***

Free cash flow is calculated as cash provided by operating activities less cash used in investing activities, as reported in the consolidated statements of cash flows, and then adding back cash used specifically for business combinations and strategic investments. Free cash flow is a key metric used by the investing community that measures the Company's ability to repay debt, finance strategic business acquisitions and investments, pay dividends, and repurchase shares. Free cash flow does not have any standardized meaning prescribed by IFRS and is not necessarily comparable to similar measures presented by other companies. Free cash flow should not be considered in isolation or as a substitute for cash flows prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB").

**Adjusted net income and adjusted basic earnings per share**

In addition to disclosing results in accordance with IFRS as issued by the IASB, the Company also provides supplementary non-IFRS measures as a method of evaluating the Company's performance. Management uses adjusted net income and adjusted basic earnings per share as a measure of enterprise-wide performance. Adjusted net income and adjusted basic earnings per share are defined as net income and basic earnings per share before items such as: non-recurring gains or losses related to acquisitions and/or dispositions of investments; costs of debt refinancing; non-cash impairment charges; and business acquisition, integration and restructuring costs. Management believes that adjusted net income and adjusted basic earnings per share are useful measures that facilitate period-to-period operating comparisons. Adjusted net income and adjusted basic earnings per share do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar measures presented by other companies. Adjusted net income and adjusted basic earnings per share should not be considered in isolation or as a substitute for net income prepared in accordance with IFRS as issued by the IASB.

**Net Debt and Net Debt to Segment Profit**

Net debt is calculated as total bank debt and notes less cash and cash equivalents as reported in the consolidated statements of financial position. Net debt is an important measure as it reflects the principal amount of debt owing by the Company as at a particular date. Net debt to segment profit is an important measure of the Company's liquidity. Net debt and net debt to segment profit do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar measures presented by other companies.

**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**August 31, 2015**

(in thousands of Canadian dollars, except per share information)

**1. CORPORATE INFORMATION**

Corus Entertainment Inc. (the “Company” or “Corus”) is a Canadian-based integrated media and content company. The Company is incorporated under the *Canada Business Corporations Act* and its Class B Non-Voting Shares are listed on the Toronto Stock Exchange (the “TSX”) under the symbol CJR.B.

The Company’s registered office is at 1500, 850 – 2<sup>nd</sup> Street SW, Calgary Alberta, T2P 0R8. The Company’s executive office is at Corus Quay, 25 Dockside Drive, Toronto, Ontario, M5A 0B5.

These interim condensed consolidated financial statements include the accounts of the Company and all its subsidiaries and joint ventures. The Company’s principal business activities are: the operation of radio stations; the operation of specialty, pay and conventional television networks; and the Corus content business which consists of the production and distribution of films and television programs, merchandise licensing, publishing and the production and distribution of animation software.

**2. STATEMENT OF COMPLIANCE**

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”). The accounting policies used in the preparation of these interim condensed consolidated financial statements conform with those in the Company’s audited annual consolidated financial statements for the year ended August 31, 2014, except as described in note 3. These interim condensed consolidated financial statements do not include all the information and disclosures required in annual financial statements and, accordingly, should be read in conjunction with the Company’s annual consolidated financial statements for the year ended August 31, 2014, which are available at [www.sedar.com](http://www.sedar.com) and on the Company’s website at [www.corusent.com](http://www.corusent.com).

These interim condensed consolidated statements of the Company for the three and twelve months ended August 31, 2015 were authorized for issue in accordance with a resolution of the Company’s Board of Directors on October 21, 2015.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The interim condensed consolidated financial statements have been prepared on a cost basis, except for derivative financial instruments and available-for-sale financial assets, which have been measured at fair value. The interim condensed consolidated financial statements are presented in Canadian dollars, which is also the Company’s functional currency and all values are rounded to the nearest thousand, except where otherwise noted. Each entity consolidated by the Company determines its own functional currency based on the primary economic environment in which the entity operates.

**Changes in accounting policies**

*IAS 36 – Impairment of Assets*

The Company has early adopted the amendments of IAS 36, *Recoverable Amount of Disclosures for Non-Financial Assets*, effective September 1, 2013. These amendments amend the disclosure requirement relating to non-financial assets such that companies are required to disclose the recoverable amount of an asset (or Cash Generating Unit (“CGU”)) only in periods in which impairment has been recorded or reversed in respect of that asset (or CGU). The amendments also expand and clarify the disclosure requirements when an asset’s (or CGU’s) recoverable amount has been determined on the basis of fair value less costs to sell (“FVLCS”). The amendment is effective for annual periods beginning on or after January 1, 2014, retrospectively, with early adoption permitted. The Company has elected to early adopt the provisions of these amendments in its annual audited consolidated financial statements.

*IFRIC 21 – Levies*

In May 2013, the IFRS Interpretations Committee (“IFRIC”), with the approval of the IASB, issued IFRIC 21 – *Levies*. IFRIC 21 provides guidance on when to recognize a liability to pay a levy imposed by government that is accounted for in accordance with IAS 37 – *Provisions, Contingent Liabilities and Contingent Assets*. IFRIC 21 is effective for annual periods beginning on or after January 1, 2014, which will be September 1, 2014 for Corus and is to be applied retrospectively. The adoption of this standard had no impact on the Company’s consolidated financial statements.

**Pending accounting changes**

*IFRS 9 – Financial Instruments: Classification and Measurement*

In July 2014, the IASB issued the final version of IFRS 9 – *Financial Instruments* which reflects all phases of the financial instrument project and replaces IAS 39 – *Financial Instruments: Recognition and Measurement* and all previous versions of IFRS 9. The standard introduces new requirements for recognition and measurement impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. Early application of previous versions of IFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before February 1, 2015. The Company is in the process of reviewing the standard to determine the impact on the consolidated financial statements.

*IFRS 15 – Revenue from Contracts with Customers*

In May 2014, the IASB issued IFRS 15 – *Revenue from Contracts with Customers*, which replaces IAS 18 – *Revenues* and covers principles for reporting about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. IFRS 15 is effective for annual periods beginning on or after January 1, 2017, which will be September 1, 2017 for Corus. The Company is in the process of reviewing the standard to determine the impact on the consolidated financial statements.

*IAS 16 – Property, Plant and Equipment and IAS 38 – Intangibles*

In May 2014, the IASB issued amendments to IAS 16 and IAS 38, prohibiting the use of revenue-based depreciation for property, plant and equipment and significantly limiting the use of revenue-based amortization for intangible assets. These amendments are effective for annual periods beginning on or after January 1, 2016, which will be September 1, 2016 for Corus and is to be applied prospectively. The Company is in the process of reviewing the standard to determine the impact on the consolidated financial statements.

During the third quarter, the Company undertook a strategic, in-depth review of the television programming slate to determine what programming best positioned its television services in the new regulatory environment. Programs that were not delivering adequate audience ratings were considered impaired and were written down accordingly. In addition, certain film investments were also considered impaired and written down accordingly. These film investments primarily related to certain boys action properties from Nelvana which are no longer supported by merchandising sales as the current lifecycle of the toy properties have ended. In addition, equity film investments made

by the Pay TV vertical were written down as well, as the present value of the expected cash flows for these investments no longer supported their carrying value. As a result, the Company has recorded non-cash impairment charges in program rights and film investments of \$51.8 million in the third quarter of fiscal 2015. These charges are excluded from the determination of segment profit.

**6. BROADCAST LICENSES AND GOODWILL**

Broadcast licenses and goodwill are tested for impairment annually as at August 31 or more frequently if events or changes in circumstances indicate that they may be impaired. During the second quarter of fiscal 2015, the Company concluded that an interim test for the Radio segment and broadcast license impairment test for certain Cash Generating Units (“CGUs”) in Radio were required. As a result of these tests, the Company recorded broadcast license and goodwill impairment charges of \$130.0 million in the second quarter of fiscal 2015, as certain radio clusters had actual results that fell short of previous estimates and the outlook for these markets is less robust.

The changes in the book value of broadcast licenses for the period ended August 31, 2015, were as follows:

	<b>Total</b>
Balance – August 31, 2014	979,984
Impairments (note 7)	(23,000)
<b>Balance – August 31, 2015</b>	<b>956,984</b>

The changes in the book value of goodwill for the period ended August 31, 2015, were as follows:

	<b>Total</b>
Balance – August 31, 2014	934,859
Impairments (note 7)	(107,000)
<b>Balance – August 31, 2015</b>	<b>827,859</b>

**7. IMPAIRMENT TESTING**

At each reporting date, the Company is required to assess its intangible assets and goodwill for potential indicators of impairment, such as an adverse change in business climate that may indicate that these assets may be impaired. If any such indication exists, the Company is required to perform an impairment test.

The test for impairment of either an intangible asset or goodwill is to compare the recoverable amount of the asset or CGU to the carrying value. The recoverable amount is the higher of an asset’s or CGU’s FVLCS and its value in use (“VIU”). The recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets (such as broadcast licenses and goodwill) and the asset’s VIU cannot be determined to equal its FVLCS. If this is the case, the recoverable amount is determined for the CGU to which the asset belongs.

(in thousands of Canadian dollars, except per share information)

In determining FVLCS, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The VIU calculation uses cash flow projections, generally for a five-year period, and a terminal value. The terminal value is the value attributed to the CGU's operations beyond the projected period using a perpetuity growth rate. The key assumptions in the VIU calculations are segment profit growth rates (for periods within the cash flow projections and in perpetuity for the calculation of the terminal value) and discount rates.

Segment profit growth rates are based on management's best estimates considering historical and expected operating plans, strategic plans, economic considerations and the general outlook for the industry and markets in which the CGU operates. The projections are prepared separately for each of the Company's CGUs to which the individual assets are allocated and are based on the most recent financial budgets approved by the Company's Board of Directors and management forecasts generally covering a period of five years with growth rate assumptions. For longer periods, a terminal growth rate is determined and applied to project future cash flows after the fifth year. This growth rate is based on management's best estimates considering the industry, operating income trends and growth prospects for that specific CGU or group of CGUs.

The discount rate applied to each asset, CGU or group of CGUs to determine VIU is a pre-tax rate that reflects an optimal debt-to-equity ratio and considers the risk-free rate, market equity risk premium, size premium and the risks specific to each asset's or CGU's cash flow projections. In calculating the VIU, the Company uses an appropriate range of discount rates in order to establish a range of values for each CGU or group of CGUs.

If the recoverable amount of a CGU or group of CGUs is less than its carrying amount, an impairment loss is recognized.

During the second quarter of fiscal 2015, the Company tested certain CGUs in its Radio segment for impairment with respect to broadcast licenses and the Radio segment group of CGUs overall for goodwill impairment. The tests were performed using the assumptions in the table below:

	<b>February 28, 2015</b>
For the Radio segment and CGUs VIU calculations in the period:	
Pre-tax discount rate	13% - 16%
Earnings growth rate	0.3% - 2.0%
Terminal growth rate	2.0%

In the second quarter, the Company determined that there were broadcast license impairments in three Radio CGUs in Ontario and one in British Columbia. For three CGUs, the Company used VIU to determine the recoverable amount, which resulted in an impairment charge of \$19.5 million, while FVLCS was used for the remaining CGU, which resulted in an impairment charge of \$3.5 million that reduced the carrying value (primarily broadcast licenses) of these CGUs to their recoverable amount.

The recoverable amount for the Radio segment group of CGUs' overall goodwill impairment test was based on VIU. In the second quarter, the Company recognized an impairment charge of

(in thousands of Canadian dollars, except per share information)

\$107.0 million, based on the conclusions stated in the preceding paragraph. The recoverable amount and carrying value of the Radio segment group of CGUs after the impairment charge is \$246.6 million.

*Sensitivity to changes in assumptions*

An increase of 50 basis points in the pre-tax discount rate, a decrease of 50 basis points in the earnings growth rate each year, or a decrease of 50 basis points in the terminal growth rate, each used in isolation to perform the Radio broadcast license and goodwill impairment tests, would not have resulted in a material change in either the broadcast license or goodwill impairment in the Radio segment.

At August 31, 2015, the Company performed its annual impairment test for fiscal 2015 and determined that there were no further impairments, than those recorded in the second quarter of fiscal 2015, for the year then ended.

The carrying amount of broadcast licenses and goodwill allocated to each CGU and/or group of CGUs are set out in the following tables:

Interest rates on the balance of the bank loans fluctuate with Canadian bankers' acceptances and/or LIBOR. As at August 31, 2015, the weighted average interest rate on the outstanding bank loans and Notes was 3.9% (2014 – 3.9%). Interest on the bank loans and Notes averaged 4.2% for the fourth quarter and 4.1% for fiscal 2015 (2014 – 4.2% and 4.2%).

The banks hold as collateral a first ranking charge on all assets and undertakings of Corus and certain of Corus' subsidiaries as designated under the credit agreement. Under the facility, the Company has undertaken to comply with financial covenants regarding a minimum interest coverage ratio and a maximum debt to cash flow ratio. Management has determined that the Company was in compliance with the covenants provided under the bank loans as at August 31, 2015.

A syndicate of lenders has provided Corus with a senior secured revolving (the "Revolving Facility") and a senior secured term credit facility (the "Term Facility") under the Amended and Restated Credit Agreement dated February 3, 2014 as further amended February 25, 2015 (the "facility").

On February 25, 2015, the Company's credit agreement was amended to extend the maturity date of the Revolving Facility which consists of a committed credit of \$500.0 million from February 11, 2017 to February 25, 2019. As a revolving facility, amounts borrowed may be repaid and re-borrowed as required through the term of the Revolving Facility. The commitment expires at the maturity date and there are no mandatory reductions to the committed amount, subject to certain covenants, during the term of the facility. As at August 31, 2015, approximately \$110.0 million of the Revolving Facility was utilized.

On February 3, 2014, the Company's credit agreement was amended and restated to establish a two year \$150.0 million term facility, which is incremental to the existing \$500.0 million Revolving Facility. The \$150.0 million Term Facility was fully drawn on inception and the proceeds were used to reduce the amount drawn on the Revolving Facility at that time. The Term Facility matures February 3, 2016 and as a result is classified as current on the Statement of Financial Position. As a term facility the amount borrowed may be repaid but once repaid is no longer available to re-borrow. As at August 31, 2015, the Term Facility was fully drawn.

On February 3, 2014, the Company entered into Canadian dollar interest rate swap agreements to fix the interest rate on the \$150.0 million Term Facility at 1.375%, plus an applicable margin, to February 3, 2016. The fair value of Level 2 financial instruments such as interest rate swap agreements is calculated by way of discounted cash flows, using market interest rates and applicable credit spreads. The Company has assessed that there is no ineffectiveness in the hedge of its interest rate exposure. The effectiveness of the hedging relationship is reviewed on a quarterly basis. As an effective hedge, unrealized gains or losses on the interest rate swap agreements are recognized in OCI.

The Company's \$550.0 million principal amount of 4.25% Senior Unsecured Guaranteed Notes ("Notes") are due on February 11, 2020.

**14. BUSINESS SEGMENT INFORMATION**

The Company's business activities are conducted through two segments: Television and Radio.

**Television**

The Television segment is comprised of specialty television networks, pay television services, conventional television stations, and the Corus content business, which consists of the production and distribution of films and television programs, merchandise licensing, publishing and animation software. Revenues are generated from subscriber fees, advertising and the licensing of proprietary films and television programs, merchandise licensing, publishing and animation software sales.

**Radio**

The Radio segment comprises 39 radio stations, situated primarily in high-growth urban centres in English Canada, with a concentration in the densely populated area of Southern Ontario. Revenues are derived from advertising aired over these stations.

Corporate results represent the incremental cost of corporate overhead in excess of the amount allocated to the other operating segments.

Management evaluates each division's performance based on revenues less direct cost of sales, general and administrative expenses. Segment profit excludes depreciation and amortization, interest expense, restructuring, impairments and certain other income and expenses.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies of the most recent annual audited consolidated financial statements.
